PAY WHEN CURED

You can arrange to take our treatment and pay when cured

\$3.50 to \$12.50
is Our Fee in Uncomplicated Cases

This proposition is made for the benefit of those thousands of sufferers who have taken medicine or treatment for months and years without benefit and who have about despaired of ever being cured, also to demonstrate to the public that we have confidence in our ability to cure any curable case. No other doctor in the state will make you such a proposition. If you take pride in your health and want to be well you can't afford to pass this up. It will cost you nothing to find out if you are curable, for we give free consultation to all who call.

IS THIS THE WAY YOU FEEL?

There is usually a pain across the small of your back; blue rings under your eyes; specks before your eyes; your sleep does not rest you; you get up in the morning feeling tired; your mind at times wanders; your memory is poor; you are losing flesh, hollow eyed; whites of your eyes are yellow; you are fearful, always expecting the worst to happen; very nervous; you start from your sleep and awake from a dream very much frightened; aching pains in the breast; no appetite. Do you know what causes you to feel like this? This condition will not improve on its own accord, but instead you will grow gradually worse and eventually end in nervous debility or neurasthenia. If you have ever taken treatment and failed to get cured perhaps it is because you never took treatment from us, for we cure many, many cases where others fail. Consult us. In the treatment of Blood Poison we use the latest improved German Cure—514, which causes every visible symptom to disappear in from 5 to 10 days. In the treatment of Kidney, Bladder, Prostatic and Rectal Diseases we have a method that renders the use of the knife obsolete. No loss of blood or time, no pain, results quick, safe, sure and permanent as thousands of our patients will tell you. We simply want the opportunity of showing every sufferer that we can give him new hope and restore him to health, strength and vigor if it be possible to do so. We know that everyone will gladly pay our small fee after we have cured them.

CONTINUED RAINS PROVE BULL HELP

Shorts Fear Wet Harvest May Mean Higher Market For Time Being When Prices Show Small Gains.

By Joseph F. Pritchard.
CHICAGO, June 18.—The harvesting of wheat is being delayed by long drawn out rains in the far southwest. This proved to be a bull help for the market at the opening Thursday when an advance of 1 3/8c was established for July and the September was up as much as 1. Some alarm was shown in the ranks of the shorts who fear that a wet harvest is among the possibilities which would mean a much higher market for the time being. Around the 10c prices early the Armour Grain company brokers sold immense quantities of the July future and bought the September. This buying and selling was kept up by that concern during the entire session. In

addition to the business done by the Armour house, the other concerns in the trade were buying the July and selling the September. The resting spots showed considerable irregularity as July was 1-3/8c lower, September was 1-1/8c higher and December was up 1-2c.

There were additional heavy sales of cash wheat that was bought here by Great Britain for July-August shipment, and sensational losses were taken on this grain in order to cancel the transactions. Great Britain has accumulated enormous quantities of wheat in India and it is believed that considerable of the wheat in the visible supply of this country is owned by England, and the chartering of vessel room for 4,000,000 bushels of wheat to come out of Russia, is on English and French account. The cash wheat situation may be called dull, not only for the new, but the old was rather slow today and that to change hands was taken by millers and the total was 25,000 bushels.

There were increased sales of corn to arrive, and this was the cause of the early dip, and the covering by shorts helped prices to reach to a point above the resting spots of last night for September, while the July was unchanged and the December showed a gain of 7-8c. Shipping call was poor with sales of 60,000 bushels.

Oats were 3-8c lower to 1-5c higher and in a general way was inclined to follow the price changes in corn. Sea-borne demand for prompt shipment was better, as ocean freights are more

plentiful and prices lower. Cash transactions here were 150,000 bushels. The fact that the stock of hog products held in Chicago is in the hands of strong concerns who believe that prices will hold up, prevents any great amount of selling by the bears in that market. Fresh meats are in good demand and the general cash meat trade is fair.

NO MECHANICS FROM UNITED STATES WANTED

British Rates Plus War Bonus Will Be Paid Workers From Canada.

LONDON, June 18.—Walter Runciman, in the house of commons today, referring to the recruitment of mechanics from Canada to help sustain the demand for munitions and supplies of war, stated that the Canadians would be paid at British rates, plus the war bonus, and that no mechanics would be recruited from the United States.

Under the reorganization of the cabinet, Mr. Runciman, president of the board of trade, speaks as one of the big ship owners of England, as well as former financial secretary and minister of commerce and former member of parliament from North Shields. He is head of the firm of Walter Runciman & Co. of Newcastle-on-Tyne, and owners of the Moor line of steamers.
